

# auraSMART® app

Control your HRV unit over WiFi

## For use with Titon HRV Q Plus Range

Titon has launched its new auraSMART® app, which enables greater user control of our HRV range of MVHR units. Easy and straightforward to use, the new auraSMART® app is ideal for installers and homeowners alike.

The new auraSMART® app available using Android or iOS mobile devices allows greater flexibility and control. With a user friendly interface, easy monitoring of your whole house ventilation systems is possible. Ideal for commissioning to guide the install process, the new auraSMART® app can cater for it all. Helping you to maintain indoor air quality for a healthy home environment.

## Features & Benefits

- Greater flexibility and control of your MVHR
- Available on android or apple platforms
- Clear and simple interface for ease of use
- Simple and straightforward commissioning
- MVHR status, including service information
