

TP631 INSTALLATION GUIDE

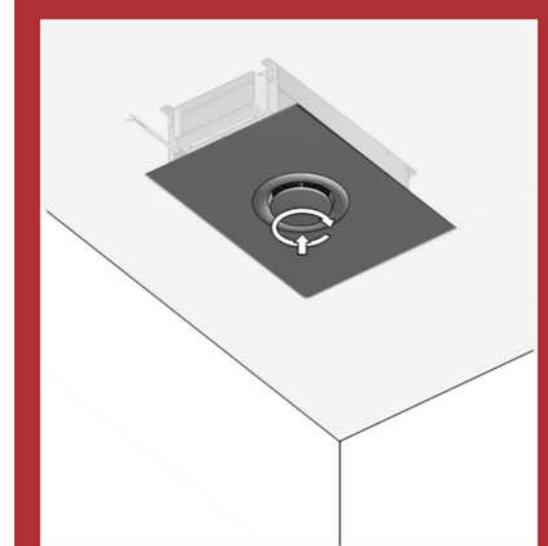

Attach the supplied guard to the purge unit's motor fixings points.

3

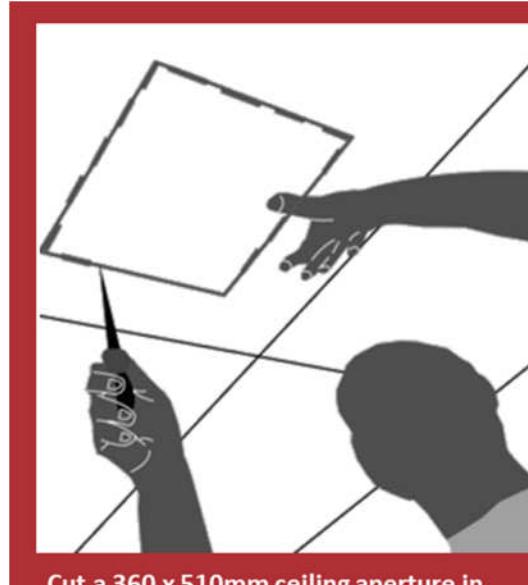

Attach the ceiling cover plate to the purge unit with the (4x supplied) M5x20 fixings and square the plate with the wall.

4

Finally attach the extract ceiling terminal to the cover plate.

5

Cut a 360 x 510mm ceiling aperture in the required position.

1

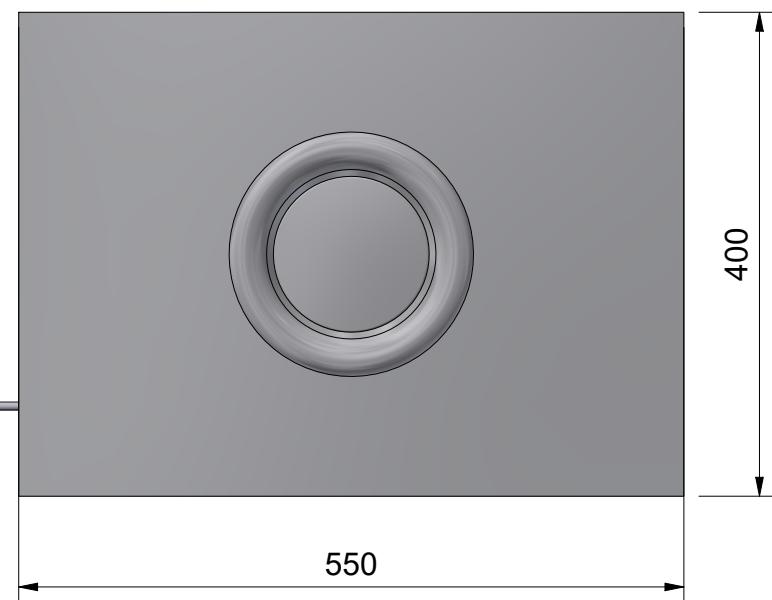

Mount the purge unit as guided in the Purge Unit Manual ensuring the dimensions above with the aperture.
